Sense of space and shape

Exercise 10

Time: 5 minutes

Which shapes belong to each outlined figure?

The image contains five rows of exercises, each with a 2D figure on the left and three 3D options on the right:

- Row 1:** A net of a cube with a square attached to the right side. Options: a) cube, b) truncated cone, c) cube with a star on the top face.
- Row 2:** A circle with a 90-degree sector removed, and a separate circle. Options: a) cylinder, b) truncated cone, c) cone.
- Row 3:** A trapezoid with a small circle above and below it. Options: a) cone, b) cylinder, c) truncated cone.
- Row 4:** A rectangle with dashed lines indicating a fold. Options: a) rectangular prism, b) cylinder, c) cylinder with a flat top.
- Row 5:** A net of a triangular prism. Options: a) triangular prism, b) triangular prism, c) cube.
